

# BOHDAN KUKHAR

## FRONTEND DEVELOPER

### SUMMARY

Frontend Developer focused on building high-performance web applications. Proficient in **JavaScript**, **TypeScript**, and modern frameworks like **React** and **Vue**. Passionate about creating clean, maintainable code and user-friendly interfaces. Eager to tackle complex challenges in a remote environment

### EXPERIENCE:

#### Prostaff Agency

- Role: Frontend Developer
- Date: jan. 2025 — dec. 2025
- Location: Remote / Poland
- Developed a scalable single-page application (SPA) using **React.js** and **Vue.js**.
- Implemented pixel-perfect responsive UI based on **Figma** mockups.
- Optimized application performance, improving Core Web Vitals scores.
- Integrated RESTful APIs and managed application state using **TypeScript**.
- Collaborated with the backend team to define JSON schemas and data flow.

### PROJECTS

#### Project 1: Developer Portfolio

- Designed and developed a personal portfolio website to showcase skills and projects.
- Stack: React, Tailwind CSS, Netlify.
- Implemented responsive design and dark/light mode.

#### AI Startup Template

- Link | 2026
- Developed a modern, responsive landing page template for AI SaaS products.
- Stack: React, Tailwind CSS, Vercel.
- Implemented complex UI animations and reusable components.

### EDUCATION

#### Frontend Development Course (Prog Academy)

- Completed: April 2025
- Intensive training program covering modern web development standards.
- Key Modules: Advanced JavaScript, React Ecosystem, State Management, Web Performance.
